April 1, 2016

To: UNLV Campus Community

From: Carl L. Reiber
Senior Vice Provost

Subject: Approval – Graduate Certificate of Public Health

The Graduate Certificate of Public Health (18 credits) has been approved. This is the final approval.

This online certificate in Public Health will provide students with a foundation in the four core sub-disciplines of public health with the overall goal of promoting and protecting the health of individuals in our society. The certificate is primarily designed for public health professionals in the private and public sectors who do not have, or are unable to pursue an MPH but who seek formalized training in fundamental elements of the field. The certificate will prepare students to take the National Certification in Public Health exam, an important new credential for the public health workforce.

Effective: Summer 2016

Please note for lists, databases, and generation of appropriate codes, etc.
