Office of the Executive Vice President & Provost

MEMORANDUM

May 25, 2016

To: UNLV Campus Community

From: Rainier Spencer
Vice Provost for Academic Affairs

Subject: Undergraduate Certificate in Technology Commercialization

The new certificate was approved for implementation in spring of 2015. A Provost Alert was not issued at that time.

This certificate will provide students with the foundational knowledge in technology commercialization. Students will learn the fundamentals of engineering technology and economics, how to create business plans, and the steps required to commercialize and launch technology into markets by creating a technology commercialization plan.

Effective: Spring 2015

This is the final approval.

Please note for lists, databases, and generation of appropriate codes, etc.
