June 14, 2016

To: UNLV Campus Community

From: Rainier Spencer
Vice Provost for Academic Affairs

Subject: Approved Unit Name Change: National Supercomputing Center for Energy and the Environment to National Supercomputing Institute

The Nevada System of Higher Education Academic Affairs Council approved this name change at its June 2016 meeting. This is the final approval.

The National Supercomputing Center for Energy and the Environment provides services and support for research and development in a wide range of disciplines including energy and the environment, but the range and scope have expanded to new and emerging research areas. The phrase “Center for Energy and the Environment” no longer adequately defines the scope of work.

Effective: June 13, 2016

Please note for lists, databases, and generation of appropriate codes, etc.
